Claims Presently in the Case

Claims 13-36 are presently in the case.

In the Specification

The Examiner objected to the specification under 35 USC 132 as introducing new matter. The new matter according to the Examiner is as follows: "a connecting device, a system comprising a percutaneous bone-anchored transferring device and a connecting device, and methods." Applicants respectfully traverse this objection. A connecting device, a system comprising a percutaneous bone-anchored transferring device and a connecting device, and methods were disclosed in the application as filed. The substitute specification merely
